

SPANISH LANGUAGE COLLECTIONS

30,000 + TITLES

12 ACADEMIC COLLECTIONS

Growing at a rate of 400+titles per month.

There is nothing comparable in Spanish.

Even if some books are translated, to read them in the original language offers the opportunity to understand them better: it is another experience to read Marx and Freud in German, Shakespeare in English and Cervantes and Dario in Spanish.

E-Libro Spanish collections offer contents that are written in Spanish and not translated into English and original contents in Spanish, which although translated,

could be better analyzed in its original language. Students and researchers of Spanish Language or Literature need original texts.

Collections to be acquired can be classified in two major groups: “Spanish Academic Collections” (includes all contents) and “Spanish Classics” (subgroup of the former that could be interesting for some clients).
